

## Do You Have What It Takes?

Where do you see yourself in 5 to 10 years from now?

Do you dream about starting your own business, but wonder how?

Do you know how to prepare for the toughest job interviews?

Do you have difficulty talking in front of a group of people?

Have you dreamed of being a strong leader that others look up to?

***Then this course is for you!***

The *Thriving Through Tough Times* course is delivered in six two-hour sessions. What is presented is not advice on success copied from some magazine or book, but practical know-how shared from actual life experience.

As a member of the bars of New York and California in the United States and Ontario and British Columbia in Canada, Andy Semotiuk has mentored hundreds of young people in professions like teaching, social work, graphic art, medicine, law, engineering, chiropractic and psychology. This means he has the experience to be a mentor for you and give you practical, useful advice on how to advance in your career.

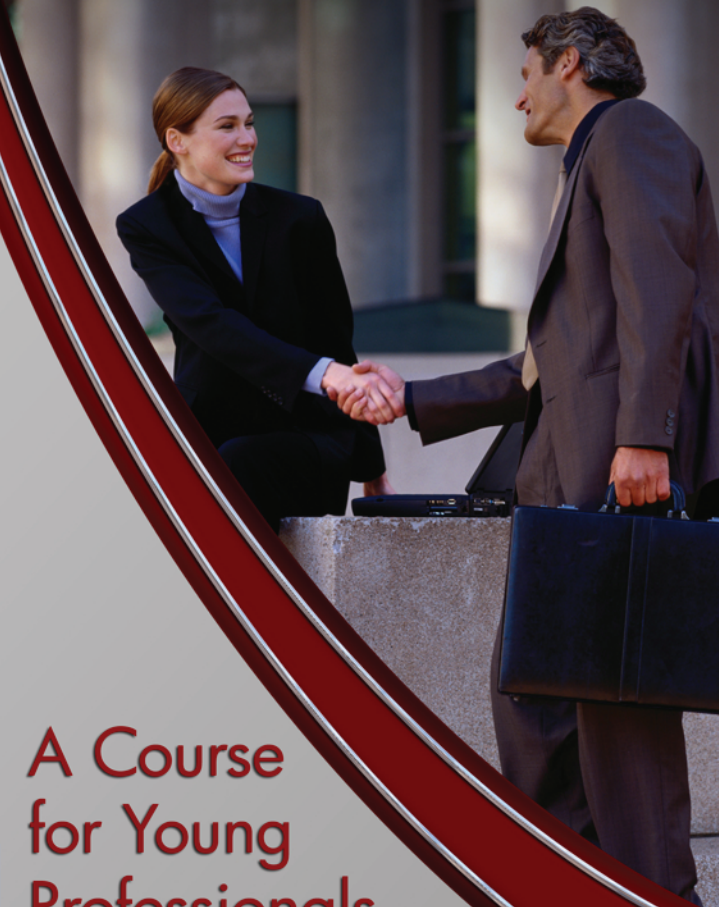

In his career as a U.S. and Canadian immigration attorney for the last 30 years, he has helped over 10,000 clients with legal problems. Andy Semotiuk knows how to help you as a young person trying to get started or an immigrant professional building your career in North America.

Andy Semotiuk has often appeared in law courts in the United States and Canada to conduct various hearings, trials and appeals. He therefore can teach you how to make presentations and put forward arguments like the best lawyers in trial courts.
